# FABRICATION CAPABILITIES

Headquartered in Birmingham, AL, O'Neal Manufacturing Services has 10 North American fabrication plants. Our facilities are built for scale, precision, and consistency. By combining advanced automation, rigorous quality control, and a strategic manufacturing network, we keep your supply chain moving smoothly.

O'Neal Manufacturing Services operates a multi-site network of ISO 9001:2015-certified facilities, strategically positioned to offer localized manufacturing support for global industrial OEMs. Our facilities are located near major manufacturing hubs, allowing same-day travel to coordinate project development. We connect regional proximity with enterprise-scale production.
