

OMS LOUISVILLE, KY

O'Neal Manufacturing Services (OMS)-Louisville is a premier, 125,000 sq. ft. facility specializing in multi-step metal fabrications and welded assemblies. With advanced equipment and skilled staff, OMS Louisville supports original equipment manufacturers in material handling, aerial lift, linear motion, and heavy equipment, ensuring a collaborative process and timely delivery.

OMS is North America's licensed distributor for the Schwerter profile mill and other European sources. With extensive fabrication experience, OMS provides equipment manufacturers with profile parts through sourcing, stocking, and processing, plus value-added services like saw cutting, shape burning, machining, welding, shot blasting, and painting.

AN ONI COMPANY

Let's Build Things®

O'Neal Manufacturing Services provides fabricated metal components and welded sub-assemblies for large equipment manufacturers and contractors. Across 10 strategically located North American facilities, OMS offers ISO 9001:2015 certification and comprehensive multistage processing capabilities for high-volume, repetitive parts production.

Our trusted project management and industrial equipment manufacturing solutions create the best value for our customers. Whether driven by the need to fulfill increased production capacity and condensed launch-to-market schedules or to find shelter from supply chain risks, OEMs trust O'Neal Manufacturing Services to produce custom parts with precision and accuracy.
